Message

Please oppose the Atlantic Coast Pipeline. There is a plentiful supply of oil and gas here in North Carolina. More importantly, the hydraulic fracturing procedure is dangerous, pollutes water, and uses the precious water resource in a wasteful manner which endangers those in the vicinity of the drilling. Additionally, the pipeline runs directly through parks and recreational forest that has been set aside for outdoor use. The construction goes right thru poor people, minorities and indigenous person's properties. Support green technology! Have 5.1 billion invested in clean energy for North Carolina!

Warm regards,  
Cherie Bohaboy
